

## **4-month Post-doc position at INRAE: completing a knowledge book on lignin**

### **Knowledge management – Zelcor European project**

A four-month position is available at IJPB Versailles (UMR 1318 AgroParisTech-INRAE; <https://www-ijpb.versailles.inra.fr/fr/>), France, to complete a knowledge book on lignin valorisation.

The achievement of this knowledge book is a dedicated task of the European project **Zelcor** focusing on zero waste biorefineries ([www.zelcor.eu](http://www.zelcor.eu)). The objective is to collect, organise and classify data available within the project under an electronic form.

The framework of the book is already settled. The work will consist in checking this framework and complete the book by writing **in english** a set of synthetic sheets relative to the different items identified. Interactions with all the members of Zelcor consortium will be necessary, as well as with experts in the field of knowledge management.

The work requires good relational skills, organisation capacity, sense of communication and writing abilities.

The work will be done basically in Versailles (France), with travel to Reims (UMR 614 FARE, Reims, France; <https://www6.nancy.inrae.fr/fare/> ) and also to other research groups in France working on lignin, when necessary.

The persons interested to contribute to this this task within a European project have to send a CV plus motivation letter to Stéphanie Baumberger ([stephanie.baumberger@inrae.fr](mailto:stephanie.baumberger@inrae.fr)) and Bernard Kurek ([bernard.kurek@inrae.fr](mailto:bernard.kurek@inrae.fr)).

Starting date: April or May
